Twenty Mile Drainage Registration Goat Hunt Closes

Anchorage – Registration permit hunt RG878 for mountain goats in the Twentymile area will close at one minute before midnight on Oct. 21, 2005, by emergency order of the Alaska Department of Fish and Game.

Anchorage assistant area wildlife biologist Jessy Coltrane said the quota of seven mountain “goat units” has been harvested from the Twentymile area. The take of no more than seven goat units is consistent with the goal of maintaining desired population levels in this hunt area. Total goat units are calculated using one unit for billies and two for nannies. To date there have been four billies and two nannies harvested (eight goat units).

All other goat hunts in Unit 14C are unaffected by the emergency order.
